Radio W9YT Confirming

Our SSB QSO Of May 5 1984

At 1820 E.S.T. Time

Report 10/9 Freq. 7.234

Xmtr. Kenwood TS 820

Rcvr. Same

Ant. 40 meter dipole

Remarks: Nice QSO. You were really barreling in. Could read you good. The 2 other stations I worked after you, were really bad. mike

73,

☒ Pse QSL Tnx ☒

Dear Mike

I really enjoyed talking to you. I wish you didn't have a skedual on 80. We could have chewed the rag longer.

Your amplifier made the differance. Maybe we will meet agn. when the bands get better.

The sun storms are causing havic on the bands. I have never been in Minnesota. Hope to get there some day. Good luck and lots of DX 73's

Frank
